WRIGHT-WHITMAN MATCH THE EVENT OF THE DAY.

L. E. Ware and Dr. Pim Also Played a Very Interesting Match.

NEWPORT, R. I., August 22.-With the two double events decided, the championship tennis at the Casino from now on will be confined to matches in singles. The match today between the two Boston cracks, Malcolm D. Whitman, a former champion, and Beals C. Wright promised a hard-fought contest and called out a crowd. A large delegation came over from Jamestown. Occupying one entlre side of the court, they were prepared to give Mr. Wright every encouragement. The knowledge that at the last meeting of these two players the match ran five sets before Whitman won added not a little to the interest in today's contest, although it seemed generally conceded that the chances again favored the ex-champion

Again the weather proved everything that could be desired.

The Pim-Ware Match.

Before the featured match was started L. E. Ware of Boston and Dr. Joshua Pim, the former English champion, began their contest. This match seemed almost as attractive as that between Whitman and Wright. Pim seemed the stronger, but Ware gave him a hot fight, especially in the first set.

After Pim had won three games Ware made a fine burst and won the first set, 7

Gradually the crowd began to sift across grandstand, and when at 11:10 o'clock Whitman-Wright contest was started nearly a thousand enthusiasts were clustered about the court. The match started with Wright serving from the east end of the court, and Whitman scored the first point on Wright's out. The next went to Wright on a net by Whitman, and he won the third by a pretty play, but lost the game on his own service. Whitman took the second game princi-

pally on Wright's errors and by a strong game at the net.

Wright Makes Fine Brace.

Wright made a fine brace in the fourth game, after Whitman had it 40 love, but lost after deuce had been called. Both players ran up at every opportunity, but Whitman's defense was better than Wright's. Soon the games were 5 to 2 in Whitman's favor, but before he realized it Wright made it 5 to 3 by winning his op-ponent's service. The rally did not hold, for Whitman took the ninth game and the The points on the first set were as fol-

HUSBAND APPEALS TO COURT.

Wants Wife to Surrender Their Children to His Custody.

John G. S. Bibby, a hospital steward in the United States navy, now stationed at Great Interest in Tennis the Washington navy yard, today petitioned the Supreme Court of the District of Columbia for writ of habeas corpus, his object being to secure from his wife, Elnore M. J. Bibby, the custody of the two surviving children of the couple. Justice Clabaugh directed that the writ issue, to be returnable at 1 o'clock next Monday after-

> When a deputy marshal proceeded to 755 7th street southeast to serve the writ he was informed that Mrs. Bibby, who had been stopping there, learned early today that her husband was about to institute legal proceedings in the hope of securing the children. She thereupon departed with the little ones, declining to make known her destination to those at the house. Officers were forthwith stationed at the rail-road station to intercept the party, if pos-

In his petition Mr Bibby sets forth that last April he established his wife and chil-dren in a home he owns in Charles county, Md., and where his father and an unmarried sister reside. About a month ago, the petitioner says, he was granted sick leave and went home. Upon his arrival, it is stated, his wife expressed dissatisfaction with her life there and threatened to leave him and go to New York, her former home. Continuing, Mr. Bibby recites that last Monday his wife obtained money from him and came to this city with the children, saying she was taking them to be photographed. After her departure, adds the petitioner, he was handed a letter from his wife, wherein she stated, in effect, that she

would not return to him and would not live in Charles county. As soon as practicable, so Mr. Bibby informs the court, he came to this city and located his wife and children at 755 7th street southeast. She again declared her intention not to return to Charles county and refused to deliver the children to the petitioner. Mr. Bibby returned to his home to consult counsel and later sent his father and sister to his wife to urge her to eturn, but she again refused to do so. Mr. Bibby alleges that his children are unlawfully detained in the custody of his wife, against his will and consent. He is represented by Attorneys Smith Thompson, jr., and L. Allison Wilmer.

CONDITIONS IN VENEZUELA.

Minister Bowen Can Now Spare Two of the War Vessels.

The State Department is in receipt of a cablegram from Minister Bowen, at Caracas, saying that he could spare two of the war vessels now in Venezuelan waters. This information is taken to mean that the situation in Venezuela has improved so far that little danger now threatens American interests.

The fact that two of the three American warships now in Venezuelan waters can be spared will permit the Navy Department to dispatch the Marietta to Colon, to which to Minister Bowens' call, she was diverted to Venezuela. The maintenance of an American warship on the gulf side of the isthmus is necessary to insure transit across the isthmus, which the United States is bound by treaty stipula-tion. The Topeka will be immediately ordered north, and she will be followed by the gunboat Machias as soon as Commander McCrea considers it safe for him to leave Cape Haytien. The latter ship has had a long seige in tropical waters, having been stationed at Colon for sometime before she went to Hayti. The departure of these two ships for home will leave the Cincinnati in Venezuelan waters and the Marietta on the coast of Panama to look after American interests.

Pistols Rented for Ten Years.

From the Charlotte (N. C.) Daily Observer.

Dealers throughout the state have hit upon an ingenious way of evading the new pistol law which went into effect on July 1. By a recent act of the legislature it is against the law to sell or offer for sale a pistol less than twenty inches in length or of weight less than three pounds, which meant in the original purpose the non-sale of the firearm. But dealers have taken advantage of the fact that the statue says nothing concerning the leasing of a pistol to any one who may be destrous of possessing the weapon. The following adver-

RECEPTION BY THE PEOPLE MOST HEARTY.

Factories Close While the Procession Moves Through the Streets-His Safety Guarded.

NEW HAVEN, Conn., August 22.-Presi dent Roosevelt entered upon his New England tour today, and New Haven was the first point visited by the nation's executive. The yacht Sylph, bearing the President, was sighted off New Haven harbor just before 1 o'clock. Half an hour later the vessel was lying alongside Belle dock, having made the run up New Haven harbor to the accompaniment of universal salutes.

The President acknowledged the salutes from the yacht's quarterdeck. He came ashore at 1:20 p.m. at a special landing constructed for the occasion. Mayor John P. Studley and a committee from the board of aldermen greeted the guest the moment he landed and conducted him to the carriage in waiting.

Measures of Protection Adopted. Belle dock freight yards were roped off and the approaches were everywhere guarded by police. Troop A, Connecticut National Guard, constituted the military

At 1:25 p.m. the procession moved. The mounted police were followed by Troop A, and then came carriages containing the President and his party and invited guests to the number of sixty. The program provided for nothing but a drive, and the progress of it took the distinguished visitor through the slums, the factory quarters, and the center of the city.

All traffic over the line of march during the hour of the President's stay was suspended and the city's factories and shops were closed between 1 and 2:30 o'clock The workmen lined the windows and crowds thronged the streets hours before the drive began. The city was gayly dressed in flags and bunting. The drive covered less than four miles of distance and was scheduled to occupy less than an hour.

The Start From Oyster Bay. OYSTER BAY, L. I., August 22.-President Roosevelt left Oyster Bay this morning for New Haven on his tour through New England. The presidential party left the house at 9:30 o'clock and was taken on board the Sylph in a launch. Fifteen minutes later the Sylph weighed anchor and started for New Haven, where she is due to arrive at about 1:30 o'clock. The party aboard the Sylph consisted of the President and Mrs. Roosevelt, Ethel Roosevelt, Sec-retary Cortelyou, Dr. Lung, the President's physician, two stenographers and two mes-sengers. A number of citizens of Oyster Bay fired a presidential salute from an anvil as the Sylph steamed away.

SPECIAL INSPECTOR.

Physician Named to Assist in Investi-

Macnamee as special sanitary inspector to assist the health department in carrying on an invescases of typhoid fever during the present prevalence of the disease. Dr. Macnamee is to receive \$3 a day for his services and place to place in the District. In recom- | sired.' mending and explaining the appointment,

Dr. Woodward says: "The particular object of this appointment is to enable the health department to determine promptly and accurately the supply used by patients reported as suffer-ing from typhoid fever, so as to enable it t) discover at the earliest possible moment the occurrence of an undue number of patients among the consumers of water or of milk from any one source. This work has been done and is being done by the medical sanitary inspector in the scarlet fever and diphtheria service. So far as he has been doing and is able to do it is an incident to his proper work, without increasing the charges against the appropriation for the

maintenance of that service. "As the work has increased his labors have been supplemented by those of the regular inspection force of the department so far as has been possible without detriment to their regular duties. In view, however, of the very considerable number of cases reported and of their location throughout the entire District, it is now impossible to secure data from such cases with sufficient promptness to enable the department to take suitable action to protect the health of the community. In view of these facts it is submitted that the above appointment and allotment can be properly made as charges against the emergency

PLUNGES INTO A LAKE.

Colored Man Being Pursued Endeavors to Escape Arrest.

Upon reaching the grounds Walker turned and ran in the direction of the lake. Overboard he went, whether purposely or accidentally, he did not say. When the officer reached the lake he found Walker standing in the deep water beyond his reach. The colored man refused to come ashore and the joke he was playing on the officer was evidently amusing to him. Finally the policeman procured a piece of rope and by its aid succeeded in compelling Walker to come ashore. He was then escorted to the police station and charged with larceny.

Horse and Automobile. From the New York Post.

There is some talk of a school wherein horses may be educated out of their fear of automobiles; whether this would serve or not is another question, but here is a little instance of what one sensible, considerate automobile driver did for the sake of a frightened horse.

The automobile had come to a standstill in the roadway to permit the passage of a small and apparently very young horse in trotting rig attached to a training sulky. The motor had not been shut off, so the machine kept chug-chug-chugging as the horse approached. With a snort and a leap the horse whirled to the side of the road, nearly throwing out the man in the sulky. Then the automobilist shut off the motor and called to the driver: "Wait a moment with the animal quiets down; then moment until the animal quiets down; then drive him up slowly while I sit still."

This the driver did, and when the horse was within ten or twelve feet of the machine, histoprogress toward it having been chine, hist progress toward it having been slow and fearful; the automobilist got out, took the horse by the bridle and led him carefully up to the car, patting the animal the while and talking to it. one winter's day saw a fox run out on the ice and make at full speed for an opening in the ice where the rushing water of the river could be plainly seen from the bank. At the edge he stopped, turned, followed his tracks back to the bank and then ran for some distance down the stream and sat there. Soon a dog came crashing out of the woods, baying finely, hot on the fox's trail. Now, dogs when on a chase of this kind trust almost entirely to their noses. This one was no exception. He ran along the ice, head down, and when he reached the hole he could not stop, but plunged into the water and disappeared forever. Then the fox trotted away with every sign of satisfaction.

The court also dissolved the temporary injunction restraining the Commissioners readvertising the sale of the hay scale privilege. In his application Mr. Donaher alleged that he was the highest bidder for the privilege, but the Commissioners rejected the same on the grounds that the price offered was below the limit that had specified.

WILKESBARRE, Pa., August 22.-It is estimated that the coal and iron policemen now guarding the idle collieries in four counties of the anthracite region number 5,000. The employment of so many special guards has necessitated an expenditure by the companies to date of \$1,800,000. Besides paying the special policemen a daily wage the companies supply them with food and lodging.

Every coal company in the anthracite district and nearly every washery has its quota of police. The commissions are all granted by Governor Stone at Harrisburg. and cost the companies \$4 for the granting and recording of each commission. Of this sum \$2 goes to the state and \$2 to the county.

The Butler washery and the Dodge colliery of the Delaware, Lackawanna and Western company, in which operations had recently been resumed, were closed today by striking miners. At the But-ler washery the men marched out in a body. It is asserted by the men that all through last night strikers in ambush kept up a continuous fire on the washery and the shed in which the workmen slept. Not being afforded sufficient protection, the men say, they decided to suspend operations. Eighty workmen had been employed at the Dodge collery and the strikers prevail-

fixed for September 3.

Japan is making an effort to develop her trade in Siberia, according to a report from United States Commercial Agent Greener at Vladivostock, dated June 27, which was made public at the State Department today. Mr. Greener says that a Japanese commercial agent is making a tour of that vast territory to select eligible localities for more consular representatives of Japan. and to endeavor to ripen the trade of Japan there in various other ways. The agent is accompanied by three graduates from the official Japanese Commercial School, all of son of Count Mutsu, who was Japanese minister to the United States in 1888-1890 whom are familiar with the Russian language.

German Inspection of Meats.

The State Department has received from United States Ambassador White at Berlin copies of the official German proclamation with regard to the fees to be charged for the inspection of meats brought into Germany from abroad. George Miles, colored, twenty-six years old, a resident of Bell's court, had an exciting experience on M street about o'clock last evening, when he got in the way of Capital Traction car No. 226, which came along just as the colored man attempted to cross the tracks and caught him in the fender. Miles was given a short ride on the fender before the car was brought to a stop. He sustained several cuts and bruises about the body and was removed to the Georgetown University Hospital. The surgeons there reported that he had not been seriously injured. Rev. Frederick B. Howden, pastor of St

ing in October.

John's Episcopal Church, who has been spending the summer at Brandfield, Conn. with his family, is expected to return to Georgetown about September 1. Policeman Hilleary M. Smith of the Georgetown station is confined to his home n Tenleytown with typhoid fever. Mr. Forrest D. Yowell is ill at his home on Wisconsin avenue, suffering from malarial fever.

SEVEN VENDERS ARRESTED. Push Cart Men Accused of Violating the Law.

There is no rest for the hucksters who amble about the streets of Washington pushing the carts containing their wares. They must either keep moving or else take the consequences incident to an infraction of the police regulations requiring that they shall not stop for a longer time than is sufficient to make a sale while on the street with their push carts.

The patrol wagon from the first precinct station made two trips this morning between the hours of 10:50 and 1 o'clock, and as a result seven Greeks, vendors of fruits and candies on the streets, were given brief and candles on the streets, were given brief rides in the covered conveyance used by the police department. Officer Chareton made the arrests, and the charges of obstructing the streets were preferred against the peddlers. The offenders were picked up on 7th their names as George Montz, George Man-juras, Gus Parlous, John Jurick, Ernest Mares, James Chalaxy and Nicholas Vlatz. Each deposited \$5 collateral with the sergeant at the first precinct station for his appearance in the Police Court, and all were released from custody.

The police are determined that the regulations regarding hucksters on the principal

thoroughfares shall be strictly enforced, and a large number of arrests have been made lately for alleged violations.

DANGER OF REACTION

SOME DEMAND FOR LONG-NEG-LECTED INDUSTRIALS.

The Leading Railroad Shares Were Fairly Well Bought by Pools Backing Them.

Special Dispatch to The Evening Star. NEW YORK, August 22.-Continued case

n the money market, loans over until Monday being made under 4 per cent, helped to keep prices firm in today's stock market without materially increasing the volume of legitimate business. Tomorrow's bank statement should be an improvement on that of last Saturday, but the early gains from the subtreasury have been materially reduced by the increase in customs payments and the \$500,000 gold taken for ex-

The market rallied on the prospect of a better showing, however, and there is no longer any effort to disregard the fact that the money rate and the condition of the banks will dominate prices from now on. Active money is reasonably certain and activity in this direction must retard an advancing market. The trust companies have been helping

to keep the money rate down during the present week, but easy money must be regarded as an artificial condition and not the result of abundant funds or of confidence in an early passing of present conditions. High priced stocks paying the investor small returns and costing the trader almost double the amount received in dividends are regarded as especially vulnerable at this time. Yet it is in this group of stocks that the most important internal developments are expected.

If the new developments include new se

curity issues the money market may show some sudden changes which will scarcely operate to the advantage of the main condi-tion. Conservatism is increasing, and strangely enough a preference is shown for certain of the better industrials which have not been exploited quite so vigorously as The steel stocks were strong throughout the steel stocks were strong throughout the day and some of the older industrials were well bought by commission houses, Republic Iron and Steel and Tennessee Coal made noteworthy gains. Colorado Fuel sold

down sharply during the morning, but ral-lied over 4 per cent later in the day, Gates brokers said they were buying no stock and attributed the advance to short covering. The hard coal shares were strong un-der a good demand from sources not recent-Ontario and Western was active under buying said to be for control, but just who was the purchaser was not disclosed. Reading was strong under buying by the interests credited with large accumulations during the summer. The street argues that

the coal strike must be speedily settled if the promises of the usual season's supply are to be fulfilled The pool in Southern Pacific advanced the price of that stock to 75 during the afternoon and kept it firm at that level. Union Pacific advanced in sympathy and there was a substantial raily in the general list during the last hour. Traders bought back stocks sold earlier in the week and were credited with forcing the advance. The volume of commission business did not

There were no unfavorable developments out the lack of some positive incentive was noticeable and led to some profit taking on There are fears of a reactionary market, but there is no organized effort in that direction. The mere onesidedness of the situation is one of its chief weak points.
